Connect with Success -- LTW connectors adopted by Delta Lloyd Boat Team wins the race in Frisian Solar Challenge

【Taipei, Taiwan】 LTW and our trusted partner, Elincom (Holland) provide free connectors to sponsor Delta Lloyd Solar Boat Team's project which designs and builds solar powered race boat to participate in the Frisian Solar Challenge. Delta Lloyd Solar Boat Team utilized LTW waterproof connectors as parts of boat design project and won the race. Today, LTW received this good news from Delta Lloyd Solar Boat Team and shared in this honor.

LTW is dedicated in designing and manufacturing waterproof connectors which meet all harsh environmental requirements such as UV resistant, Vibration and Shock-proof, Temperature Resistant, and many others and has also demonstrated good performance in electrical connection system. Thus this project is just a kick-off that LTW's connectors play important role in connection system for solar powered boat. Delta Lloyd Solar Boat Team recognizes and continues to adopt LTW connectors to design its new boat for the race in July 2010. Moreover, LTW look forward to sponsoring more design projects to provide waterproof connection solutions every year.

About LTW:

LTW Technology, established in 1993, is a professional designer and manufacturer of waterproof connectors. Around 90% of our products are distributed worldwide with LTW's own brand and 80% of sales revenues are from exporting. NOW, LTW is considered as the only manufacturer focusing on outdoor waterproof connectors in Asia.
